Guidelines on Continuous Assessment (CA)

Continuous Assessment (CA). of a course with weightage 40% has got two components

(a) **Class Tests** (b) **Teacher Assessment.**

- (a) **Class Tests (20 % marks):** There should be 2-3 class tests of at least one hour in each paper. First test normally covers 40% of the course.
- (b) **Teacher Assessment (20 % marks):** is based on some kind of assignments & VIVA etc. such as mini projects and its presentation, development of some tools & app and some presentations based on topics of the paper which may also be related to some kind of real life example. Normally there should be two mini projects, and its presentation and 6-8 presentations based on topics of the course.
